

## ANTI-TUBERCULOSIS PROGRAM OUTLINED

Directors Meet in Louisville and Secretary Kerner Tells of Plans.

### WILL GO THROUGH STATE PHOTOGRAPHING CONDITIONS.

A meeting of the Board of Directors of the Kentucky Association for the Study and Prevention of Tuberculosis was held in the Leather Room of the Seelbach Hotel, in Louisville, at which the newly appointed secretary, Mr. Eugene Kerner, presented an interesting program for arousing Kentucky to an active fight against tuberculosis.

Mr. Kerner told of the work being done by some of the states in the East, and stated that Kentucky is the first state in the South that has shown an active interest in stamping out this White Plague, which claims over 6,500 lives annually in Kentucky.

Mr. Kerner will go through the state, armed with a camera, taking pictures and collecting statistics of conditions as he finds them and will give lectures and exhibits to acquaint the people with what he finds, urging them to form local Anti-Tuberculosis Societies and committees to take up the fight in their respective localities. His headquarters will be at 215 East Walnut street, Louisville.

Dr. George P. Sprague, of Lexington, said that a special committee on tuberculosis had been appointed by the Kentucky State Medical Association, which will work in close co-operation with the association.

Dr. S. H. Keller, of Frankfort, said that the State Board of Health is ready to lend the association every aid possible in stamping out this great White Plague in Kentucky.

Mrs. Charles Dallan, of Henderson, gave an excellent report of the work done by the Henderson Anti-Tuberculosis Association, illustrating what can be done in a locality that has realized its needs.

A committee was appointed to enlist all fraternal societies in the state to help in this great fight.

### EARLINGTON ATHLETIC CLUB VS. MADISONVILLE SCHOOL

In First Game of Ball Played by E. A. C. This Year.

The E. A. C. played their first game of ball this season with the Madisonville High School nine at Madisonville last Friday, and owing to the lack of practice were badly beaten, the score standing 12 to 6 in favor of Madisonville. Spillman and Foley did the battery work for Earlington, and Mitchell and Givens for Madisonville. Spillman pitched a winning game, but did not receive the support he should, with the above result.

The E. A. C. and M. H. S. are scheduled for five games, the second of which will probably be played at Earlington this week, and if our boys have a little more practice and their full team we bespeak for them success.

Mrs. J. E. McAfee Died.

Mrs. J. E. McAfee died at her home in this city Friday morning at 3 o'clock of child birth. Her remains were carried to Elkhorn, her old home, Friday at 51. She leaves a husband and five children.

### ODD FELLOWS' BANQUET

Given at Their Hall Tuesday Night—Over One Hundred Invited Guests.

Decidedly one of the nicest affairs ever given in this city was a banquet given by the members of the Odd Fellows in this city to their friends and there was a large number in attendance, over 100 invited guests being present.

Rev. W. H. Moore, with a few well chosen remarks, welcomed the visitors to the hall. Two large tables were spread and fairly groined with the good things to eat. The Odd Fellows are no doubt the strongest organization we have. They have over 150 members in good standing and are securing more every meeting night and the members represent our best citizens. These social affairs, like the one given Tuesday night, have a tendency to cement the already bonds of friendship between the members and their friends. The I. O. O. F. was organized in this city in 1871 with 24 charter members, all of whom are dead now, and their places taken now by their children and grandchildren. They will give these banquets during the summer.

This order was founded ninety-one years ago—April 26, 1819, in Baltimore. Those present at the first meeting were Thomas Wilday, John Welsh, John Duncan, John Cheatham and Richard Rushworth. The order has now spread over the civilized world and at present has a membership of about 2,000,000, and has paid out as a relief fund in the neighborhood of \$120,334.915. It is said to be the largest fraternal and benevolent organization in the world. The first lodge organized west of the Allegheny Mountains was instituted by Mr. Wilsey in Louisville in 1837 and was called Boone Lodge, which is still in existence. Today there are 369 lodges in the State with a membership of 28,000.

### DEATH FROM HEART TROUBLE

Mrs. Julius Coenen Died in This City Thursday Evening of Last Week.

Mrs. Julius Coenen, age 62 years, died in this city Thursday evening at her home on Moss avenue. Mrs. Coenen had been quite ill for some time, but her death was caused by heart trouble. She leaves a husband, one daughter and three sons. She was buried at the Catholic cemetery Saturday morning at 10 o'clock. A large number of her friends followed the body to its last resting place. Mrs. Coenen was a member of the Catholic church and was a good Christian woman, who had a large number of friends. The flowers were many and beautiful. The BEE extends its heartfelt sympathy to the bereaved family.

### ENGAGEMENT ANNOUNCED

M. H. Thatcher and Miss Chinn to Wed on May 4.

Frankfort, Ky., April 22.—Announcement is made here of the coming marriage on May 4, of Miss Anna Belle Chinn, of this city, and Mr. M. H. Thatcher, the new Governor of the Canal Zone.

The engagement of Mr. Thatcher and Miss Chinn has been known among the intimate friends of the couple for some time.

Within a few days after the marriage Mr. Thatcher with his bride will sail for Panama, where Mr. Thatcher will assume his new duties.

## MINING NOTES.

### OHIO CAPITALISTS TO OPEN KENTUCKY MINES.

Lease 12,000 Acres in Monroe County and Will Prospect for Lead and Silver.

Glasgow, Ky., April 25.—Considerable interest was created here when it became known that a company of Ohio capitalists had leased 12,000 acres of land in Monroe county, an adjoining county to this, and would within the next few weeks begin operations for minerals, silver, lead and zinc being the chief metals sought. Other minerals will be looked after, but according to a report of an expert who went over the ground, lead is the most likely of all metals to be found in paying quantities.

So very quietly was the lease done that very few aside from those who leased the land knew of the movement. Most of the holdings of the company are in what is known as the Otis section, and the first work will be on the farm of J. F. Kidwell, near the place.

Jim Kelley, who has been firing the boilers at No. 9 mine for some time, will leave in a few days for Zeigler, Ill., where he goes to fire one of the railroad engines at that place.

Plans and specifications are being drawn for a new and enlarged coke washer and when completed will compare favorably with any in the South.

Mike Hanna, Jr., spent a few days last week at the Ingleside mines putting in a large new shaker and doing other heavy iron work.

Joe Egloff, who has been an employee of the mines here for many years, has moved to Evansville to reside in the future.

Geo. King, of Madisonville, formerly mine boss at St. Charles, was in the city on business Monday.

Assistant General Manager Spillman, of the St. Bernard Co., was in Providence Monday on business.

Vent Ruckman, coal operator of Providence, was in the city Monday on business.

Thos. Black, of the Shamrock mines near Providence, was in the city last week.

Thos. O. Long spent Sunday in the city with his parents.

### Knights of Pythias Prosperous.

There are over 700 000 Knights of Pythias in the United States, 14,000 in Kentucky and 100 in Earlington. Just think of it. It teaches friendship, charity and benevolence. Its membership consists of the best citizenship in the city, in the State and in the United States. They have the grandest home in the State, where the widows and orphans of the unfortunate Knights of Kentucky will be cared for, and have all the attention possible in the wealthiest homes in the land. They also have an insurance department for the protection of the home of the Knights. Their contracts are second to none, as good as old line insurance and a great deal cheaper. They can give you a 20 year paid up contract, Victoria Lodge No. 84 pays its members \$3.50 per week in case of sickness or disability and \$25 funeral benefit in case of death. Dues are only 10 cents per week. So you can see if you are not a Knight of Pythias, you ought to be.

## Locomotive Blasts.

One of These Peculiar Southern Roads.

"Ever ride on the Chatahooclie & Atlanta?"

"None."

"It doesn't make any particular difference on that road whether you ask for an upper berth or a lower."

"Why not?"

"Cause every time a train goes down the ditch it's sure to turn upside down."—Cleveland Plain Dealer.

### Milking a Railroad.

"Pop, tell me something."

"Yes, my son."

"I heard somebody say the other day that such-and-such a railroad has been milked."

"Well, my son?"

"Is that what they have cowcatchers for?"—Baltimore American.

The air brake car inspector spent several days here inspecting the employees on the manipulation of compressed air. Mr. Sherman, who is in charge of the car, is one of the best posted men on compressed air in the United States and has been an employee of the L. & N. for many years.

A letter from R. E. Brooks says that he has arrived at Las Vegas, New Mexico, and is now learning the road preparatory to assuming a trick at once.

W. K. Griffin, assistant trainmaster of the Terminal Association of Nashville, Tenn., visited friends in the city Sunday.

The extra train that carried the old Confederates to Mobile Monday morning was in charge of Conductor Wm. West.

Master Mechanic Enoch made a business trip to Madisonville Monday.

M. Devney, of Evansville, was in the city last week.

### SEVEN MURDER CASES

On the Docket of the Henderson Circuit Court.

Henderson, Ky., April 26.—Circuit court will begin Monday for the regular May term of eight weeks. There are several murder cases on the docket for trial.

The trial of T. S. Anderson, the Owensboro banker charged with making and swearing to false entries, has been set for May 11. Anderson was tried at the January term on a charge of venue from the Daviess circuit court. The jury failed to reach a verdict.

### CUBAN REBELLION SQUELCHED

Uprising Against Whites Planned by Negroes

Havana, April 26.—A native rebellion in Cuba was revealed and blocked today when indictments were returned against General Ezariato Estevez, a negro soldier, and 22 other plotters. Evidence showed extensive preparations for an anti-white uprising May 24.

### Gough Deal.

Married Thursday afternoon at the home of the bride's mother, Mr. Bryant Deal and Miss Mamie Gough, both of this city. They will reside in this city. Mr. Deal is an employee of the mechanical department of the L. & N. and is a young man of sterling worth that has the good will and confidence of all. Miss Gough is a daughter of the late A. G. Gough, and is a sweet, lovable young lady, who has many friends and is very popular with the younger society people. The BEE extends congratulation and best wishes.

### HONOR ROLL

Grade VIII, Miss Kemp, teacher. Sallie Heniff, 97; Paul Moore, Jr., 97.

Grade IX, R. Y. Maxey, teacher. None.

CORRECTOR—Harold Oldham was on the Roll of Honor last month, but by an oversight somewhere his name did not appear in THE BEE.

### ANDERSON CASE AGAIN

Former Owensboro Banker to Get Hearing May 11.

Owensboro, Ky., April 26.—The prosecution against T. S. Anderson, charged with having sworn falsely to a report made to the State Auditor as to the financial condition of the Daviess County Bank and Trust Company, on March 31, 1908, will be called for trial at Henderson, May 11. The Sheriff here has been busy summoning witnesses in the case.

The case was called for trial last January and resulted in a hung jury, being six for acquittal and six for conviction. It is understood that both sides are prepared to enter into the trial.

### Big Punch Bowl Given Away.

Some lucky person will be given absolutely free a big punch bowl and glass set at the rink Saturday night. The Klub Kentuck band gives their last concert that night, and skating closes until next season. The guesses will be on the advertisements in this issue of THE BEE. An uninterested party will select a certain ad in THE BEE and count words in it and seal it in an envelope. With each admission to the rink will be given one guess as to which ad it is and the number of words it contains, and with each pair of skates will be given an additional guess. These guesses will be placed in a box at the rink door, and at the close of the skating the envelopes will be opened and the winning ad announced, and then the guesses will be drawn from the box one at a time until a correct one will be awarded the prize. The punch bowl can be seen in the windows of the Bargain Store, in the Victory building.

Read the ads in this issue of THE BEE.

## SOCIAL EVENTS.

On Friday, April 15, the East End Card Club met with the Misses Orenshaw. The afternoon was a most delightful one, as the majority of the club members were present, only two of the ladies being substitutes, Mrs. Goldsmith and Miss Moorehead. Mrs. Daves won the highest number of games. A delicious ice was served.

Mrs. Newbold entertained the Card Club on last Friday at her residence on Moss avenue, into which she has lately moved. Among the visitors present were Mrs. J. B. Atkinson, Miss Carrie Atkinson and Miss Fells, of Philadelphia. Mesdames J. E. and Geo. Atkinson made equally high scores. A delicious and dainty salad course was served by the hostess.

The La So Con Club met with Miss Annie Ashby last Tuesday night. While the La So Cons have proved their cleverness in a number of ways since the organization of the club, every once in a while they are confronted by startling and rather formidable propositions. The last meeting was not an exception to this rule. For a while the La So Cons struggled with some seeming baffling "Problems," but not for long. All were soon solved, although some of the members left one or two to be dealt with in the future. During the social hour strawberries and cake were served.

### PASS REQUIRED EXAMINATION

All the State Guard Officers of This City Make High Average.

All the State Guard officers of this city have passed the required examination and their averages were high. Capt. Powers, who was examined and passed some time ago, thought that he would be examined again and studied every night until the night before the last examination, when he found out that he had already passed and would not be required to stand anymore. A good deal of unnecessary study was involved, but it is a very good thing to have.

Miss Clay Willis, Victim of Auto Accident, is Better.

Shelbyville, Ky., April 22.—Clay Willis, the youngest daughter of L. C. Willis, who was seriously injured in an automobile wreck on April 2, has never entirely regained consciousness, but gives indications that she occasionally recognizes those about her.

Her condition shows a decided improvement in the past few days, and her physicians are now very hopeful of a complete recovery.

The young lady referred to is a cousin of Miss Lois Willis, who has been a teacher in the Earlington Graded School the past two years.

### E. A. C. at St. Charles.

A large number of the people of St. Charles were surprised at the fine show that they witnessed at their opera house Saturday night. The E. A. C. entertained the people of that town with the best performance they have ever seen for some time and the applause was at times long and loud. These boys put on a first class show and deserve liberal patronage. They will at an early date surprise the citizens of Madisonville at Morton Theater and a good house is assured there.

## Impossible to be Well

It is impossible to be well, simply impossible, if the bowels are constipated. You must pay attention to the laws of nature, or suffer the consequences. Undigested material, waste products, poisonous substances, must be removed from the body at least once each day, or there will be trouble. A sluggish liver is responsible for an immense amount of suffering and serious disease. Ask your doctor about Ayer's Pills. He knows why they act directly on the liver. Trust him. J. C. Ayer Co., Lowell, Mass.

### Additional Locals.

We hope the Mayor will designate a cleanup day for the town of Earlington.

Geo. Toy, of Henderson, was in the city Saturday to attend the funeral of Mrs. Julius Conner.

Dan W. Umstead and wife left Monday to attend the annual reunion of the Confederate veterans at Mobile.

T. H. Stone & Co. have just received a very fine new hearse. It is solid white, and will be pulled by white horses with white harness.

The Ladies Aid Society of the M. E. Church held their regular weekly meeting at Webb's hall Tuesday afternoon.

The City Board of Health request the citizens of the city to clean up their alleys and back yards before the warm weather.

Tobe Long left Tuesday for Louisville, where he is a delegate to the Grand Lodge of Knights of Secunity from this lodge here.

Everyone should read the article on patronizing mail order houses that was published in the Morton's Gap news last week. It was true and to the point.

Mrs. Rufe N. Clark left Tuesday for Owensboro to attend the Holiness meeting in that city. There will be people from all over the United States at this meeting.

Mr. H. C. Cox, of Fairmont, West Va., has accepted a position with Tappan and Gardner as watch maker. Mr. Cox comes here with his family and is highly recommended by the citizens of his former home.

Don't fail to attend the closing concert of the Klub Kentucky band at the rink Saturday night. Also skating for the last time this season. A handsome punch bowl will be given away. It can be seen in the window of the new Bargain Store.

Page Blakemore, Robt. Atkins, Robt. Lowery and Chas. McCarroll, students of the Senior class of the Kentucky University at Lexington, Ky., are in the city this week getting some practical experience at mine engineering under Chief Whiffler. Mr. Blakemore spent last summer in the city and has many friends, who are glad to welcome him back. They will remain about a week or ten days.

## Cook in Comfort

You no longer need wear yourself out with the weakening heat of an intensely hot kitchen. You can cook in comfort.

## New Perfection Oil Cook-stove

entirely removes the discomfort of cooking. Apply a match and immediately the stove is ready. Instantly an intense heat is projected upwards against the pot, pan, kettle or boiler, and yet there is no surrounding heat—no smell—no smoke.

Why? Because The New Perfection Oil Cook-Stove is scientifically and practically perfect. You cannot use too much wood—it is automatically controlled. You get the maximum heat—no smoke. The burner is simple. One pipe with a cloth cleans it—consequently there is no smell. The New Perfection Oil Cook-Stove is wonderful for year-round use, but especially in summer. Its heat operates upward to pan, pot, or kettle, but not beyond or around. It is useless for heating a room.

It has a Cabinet Top with shelf for keeping plates and food hot. It has long turquoise-blue enamel chimneys. The nickel finish, with the bright blue of the chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

## TEXAS RAILROAD MERGER

Announcement is Made That Two Lines Will Be Operated as One Property.

Austin, Tex., Apr. 25.—A merger of the Texas Central and the Beaumont & Great Northern railroads has been announced. According to one report, this is to be accomplished by the purchase of Beaumont & Great Northern by the Texas Central, but another persistent rumor is that both lines are to be taken over by the Santa Fe. The Beaumont & Great Northern runs between Knox and Trinity, and it recently amended its charter to provide for construction of an extension from Trinity southwest to Waco, about 100 miles. Its original charter authorizes it to build to Beaumont, about 60 miles from Knox.

## YEGG MURDERER MUST DIE

"Bangor Billy" Sentenced to Be Executed for Slaying "Pat" Who "Snatched" on Six Robbers.

New York, Apr. 27.—Thos. Barnes, aka "Bangor Billy," who killed a fellow "yegg" William Leonard, for "agguiling," has been sentenced to die in Sing Sing prison during the week beginning June 6. Barnes was one of six men who robbed the postoffice at Raleigh, N. C., a year ago.

The other five were all arrested and convicted, but Leonard, pardoned at the request of the postoffice inspectors, who found they could use him to get information.

Barnes suspected Leonard and traced him to Brooklyn, where he shot him at his door before his wife.

Crocker to Come Home to Live.  
New York, Apr. 25.—Friends of Richard Crocker said that he would return before the summer to live to make New York his permanent home. He finds himself lonely in Ireland, they say, and is anxious to renew the attachments of early days. Crocker is 67 years old. He sailed for Ireland last Wednesday, after his annual sojourn in this country.

Didn't Want to Go Too Far.  
Joseph Jefferson had a favorite story concerning a small boy whose cherished bulldog got into frequent fights. After one such encounter troubled Jimmy sought the aid of the late family physician.

"Why, yes, I can fix your dog up," said this gentleman, kindly, "but I thought your family had accepted Christian Science. Why don't you try one of your own healers? Don't you think they could cure him?"

"Yes, sir," he said, "the lad, nervously stepping from one foot to another, 'we have, an' they could, an' I would only—I'm afraid they'll all the fight out of him, that's all.'"

## MILL NATIVE CONVERTS

THOUSANDS JOIN MOBS THIRSTY FOR BLOOD OF CHINESE.

Pillage and Slaughter Continue in Hunan and Spread to Province of Hupoh.

Hankow, Apr. 25.—Many thousands of Chinese are daily joining the "holy war" being waged against foreign and native Christians. Rioting in the province of Hunan continues and has spread throughout many districts of Hupoh.

Pillage and slaughter are kept up. Murders are pouring in from various districts with tales of horror.

While the safety of many Christians, for the most part missionaries, is in doubt, the trouble has generally settled into a war of extermination of native Christians, hundreds of whom have been tortured and slain.

Every hour brings news of fresh atrocities. There is even some disorder within the city of Hankow, refuge of the whites forced to flee from the remote districts. The situation is constantly increasing in seriousness.

Refugees brought word of the terrible war against the native converts. Every punishment known to Chinese criminal law is practiced by the mobs, and tortures never before used, some of them unspeakable, as well.

In some instances the victims' tongues have been torn out by the roots and they have been set loose, often blinded, and mockingly told to preach the new creed. Bound till they could scarcely move a muscle, others have been tickled continually till their brains gave way. The water torture—the steady dropping of water on one spot of the body—has been frequently employed by the venal mobs. After the four hundredth drop, this torture is excruciating; in one instance, more than 3,000 drops were used.

Some of the victims have been bayed alive, lashed by inch, till every trace of feeling has been removed. In one instance a Christian, an old woman, was bound and her teeth fixed away to the gums. Fingers and toes of others have been pulled out.

Definite information regarding many missionaries in the remote parts of the province is still lacking. It is known orders were sent to nearly all the stations advising them to flee to points of safety at their discretion. Some, however, were believed to be in danger.

## Nervous

"I was very nervous," writes Mrs. Mollie Mirse, of Carversville, Ky., "had palpitation of the heart, and was irregular. On the advice of Mrs. Hattie Cain I took 2 bottles of Cardui and it did me more good than any medicine I ever took. I am 44 years old and the change has not left me, but I am lots better since taking Cardui."

Take **CARDUI**

The Woman's Tonic

Cardui is advertised and sold by its loving friends. The lady who advised Mrs. Mirse to take Cardui, had herself been cured of serious female trouble, by Cardui, so she knew what Cardui would do.

If Cardui cured Mrs. Cain and Mrs. Mirse, it surely will cure you too. Won't you try it? Please do.

## PEARY OFF FOR EUROPE TO LECTURE ON POLE

WILL RECEIVE A GOLD MEDAL AT ROME.

Commander Will Tell Royal Geographical Society at London How He Reached the Goal.

New York, Apr. 27.—Commander Robert E. Peary sailed on the Kron-praesens Cecilie for a lecture tour of England and the continent. He is accompanied by Mrs. Peary and their two children and by Capt. Robert A. Bartlett, the New Foundland skipper who commanded the Roosevelt on the trip to the north pole.

"I will be away only six weeks," said Mr. Peary. "I expect to be back in New York on June 10. I will give my first lecture in London on May 4."

Commander Peary's London address will be delivered before the Royal Geographical society, to which he is to tell the story of his polar trip. On that occasion, the society will present a gold medal again and a silver medal to Capt. Bartlett. In Rome, on May 20, the commander will receive another gold medal.

The greatest geographical societies of Europe will honor the explorer during his visit. In addition to those in London and Rome, he is to speak to the societies in Paris, Berlin, Brussels, Vienna and Edinburgh. He also will deliver addresses in Budapest, Glasgow, Leeds, Aberdeen and other cities.

## COMMERCE COURT ACT MAY BE VOTED DOWN

House in Committee of the Whole Refuse to Strike Out Feature in Railroad Bill by a Tie Vote.

Washington, Apr. 27.—After refusing in committee of the whole, by a tie vote, to strike out the court of commerce feature from the administration railroad bill, preparations were made to force this action when the house arose from committee. It was declared that enough votes would be mustered to eliminate it.

The committee action was on the motion of Representative Hubbard that the clause be stricken out. Representative Bennett was in the chair when he put the motion, the result was 140 to 139 in favor of the proposition. Bennett then cast his vote against it, making the vote a tie and losing the motion.

The combination of insurgents and Democrats in the house have been sweeping everything before them and are confident that this move, directed against the administration, would be successful.

## HASKELL VENIRE IS DRAWN

Selecting Jury for Trial of Oklahoma's Governor—150 Witnesses Are Also Subpoenaed.

Guthrie, Okla., Apr. 27.—Two hundred names have been drawn from the federal jury box at Muskogee from which to select 12 to serve in the trial of Gov. C. N. Haskell. One hundred and fifty witnesses have been subpoenaed from all parts of the country and District Attorney Gregg has the assurance of perfect support of the department of justice at Washington in the prosecution of the case.

Gov. Haskell is in Muskogee preparing his defense, while Attorney W. T. Ledbetter of Oklahoma City, one of his personal counsel, is in Washington securing evidence. Ledbetter is also attorney for the Waters Piers Oil company in Oklahoma.

## PAT CROWE IS A LOBBYIST

Former Kidnaped Goes to Washington in Interest of Prodigals—Opposes Contract Prison Labor.

Washington, Apr. 27.—Though he says he "blew into town to see the sights," Pat Crowe, former kidnaped and general utility outlaw, is here lobbying for the "prodigal son."

"For 20 years I was an outlaw," said Crowe. "We all know the story of the prodigal son. What is Congress to do with these poor fellows? Let the prisoners help to build up the country."

"Contract labor in prisons should be abolished and prisoners put to employment, where they could be conscious of paying their debt to society. There are 400,000 unfortunates willing to jump in and do this."

## BABY SAVES BLIND MAN

Four-Year-Old Boy Is Hero in Chicago Tenement House Fire—Candidate for Medal.

Chicago, Apr. 22.—Ralph Gimbel, 4 years old, Friday is a candidate for a hero medal for having saved the life of James O'Connor, a blind musician, in a burning building at 2220 Park avenue.

As other persons were scrambling down the stairs, the boy thought of the old man and went back to get him. Clouds of smoke poured about the child as he went up the rear stairs, beneath which the flames were crackling. He found the musician standing by the door of his room, and, taking his hand, led him safely out.

BARNES, COW- AND & CO. INCORPORATED

Columbia, Mo., Apr. 22.—President A. Ross Hill of the University of Missouri, who has been ill with mumps, is improving steadily, although still confined to his room. He will probably resume his duties the first of next week.

## Wreck Victim's Body Home.

Milan, Mo., Apr. 23.—Ira Sears arrived here with the body of John A. Logan Sears, who was killed in a wreck at Spokane, Wash. The dead man was 23 years old and was the son of W. W. Sears of this place.

Edmonton, Alberta, Apr. 26.—Fierce prairie fires have been raging for a week in northern Alberta, some being 10 miles wide. One near Vermilion burned two children to death.

## Shoots His Enemy Three Times.

Milan, Mo., Apr. 22.—Geo. Franklin shot James Bohannon, one shot taking effect in the back, another in the shoulder and one in the abdomen. Physicians pronounce the wounds fatal. There has been a grudge of long standing between the men. The shooting occurred near here.

Devoured by Wolves. A grim tale comes from Transylvania. While Baron Otto Urban, a Hungarian magnate, aged 75 years, was riding on his estate he was chased by hunger-pinched wolves. His horse became frenzied, and threw the baron, who was devoured by the wolves. A bloody knife, found in the snow, indicates that he fought for his life.

India's Cotton Cultivation. The total area under cotton in India amounts to nearly 19,000,000 acres.

This is an increase for the year of 21½ per cent., and was secured at a lower expense ratio than in 1908.		
<b>INCREASE IN OUTSTANDING INSURANCE IN 1909</b>	8,869,439.00	
<b>COMPARED WITH A DECREASE IN 1908</b>		13,647,814.00
An improvement of \$22,517,253.00 as compared with 1908.		
<b>FIRST YEAR CASH PREMIUMS</b> (excluding on additions)	3,774,321.27	2,724,976.59
This is an increase of 38½ per cent. as compared with 1908.		
<b>TOTAL AMOUNT PAID TO POLICYHOLDERS</b>	51,716,579.04	47,861,542.09
<b>DEATH BENEFITS</b>	20,162,318.67	20,324,062.65
97 per cent. of all Death Claims in America were paid within one day after proofs of death were received.		
<b>ENDOWMENTS</b>	6,321,554.41	4,830,176.10
<b>ANNUITIES, SURRENDER VALUES AND OTHER BENEFITS</b>	15,683,665.88	14,896,364.16
<b>DIVIDENDS TO POLICYHOLDERS</b>	9,609,040.08	8,011,015.78
1910 dividends to Policyholders will approximate \$11,000,000.		
<b>DIVIDENDS TO STOCKHOLDERS</b>	7,000.00	7,000.00
This is the maximum dividend that stockholders can receive under the Society's Charter.		
<b>OUTSTANDING LOANS TO POLICYHOLDERS</b>	59,954,933.10	57,053,855.28
<b>EARNINGS FROM INTEREST AND RENTS</b>	21,074,013.95	20,636,405.61
<b>OUTSTANDING LOANS ON REAL ESTATE MORTGAGES</b>	97,532,648.03	97,570,767.22
<b>TOTAL EXPENSES, including Commissions and Taxes</b>	10,438,729.64	9,758,447.46

The average gross rate of interest realized during 1909 amounted to 4.50 percent, as against 4.45 percent in 1908, 4.39 percent in 1907, 4.26 percent in 1906, 4.03 percent in 1905, and 3.90 percent in 1904.

The condition of your Society is constantly improving. The growth of new business at a reduced expense ratio and the increase in outstanding insurance manifest public recognition of the fact.

## GUNBOATS REFUGE OF MISSIONARIES

UPRISING IN CHINA RESULTS IN THREATS AGAINST FOREIGNERS, WHO ARE FLEEING.

## MASSACRE NARROWLY AVERTED

Refugees Succeeded in Finding Safe Havens and It Is Believed That the Worst of the Trouble Is Now Over.

Hankow, Apr. 22.—The situation in Hanyan province is reported as critical. Women and children are fleeing for their lives from Chang Sha, the capital.

A number of villages near that city have been burned by native mobs. The country is placarded with threats to kill all foreigners.

This news was brought by missionary refugees from Chang Sha and nearby stations. Many of them had traveled 30 miles on foot and reached the Yang Tze Kiang river in rags. Their houses had been burned and they lost all of their personal effects. The missionaries stated that gunboats in the river have their guns pointed upon Chang Sha and nearby points and have afforded a refuge for many foreigners. Three thousand Chinese imperial soldiers are occupying the strategic points of the capital and detachments are being hurried to the outlying districts, where rioting is reported.

Thirty-five Chinese Students Burned. Many cities have been killed. In one instance a technical school was set afire and 30 students were burned to death.

When vessels approached Chang Sha to rescue the imperiled ones, the Chinese mobs saturated junks with kerosene from looted stations of the Standard Oil company, and, setting them afire, allowed them to float down stream in an attempt to destroy the oncoming steamers.

The vessels of Hanyan province and the governor of Chang Sha assert they have the situation in hand and that order is practically restored, but the missionaries say they fear further outrages.

The telegraph wires to the westward of the disturbed districts have been cut. Many missionaries, American, French and Norwegian, remain as outlying posts.

The British consul at Chang Sha, who has arrived here, said: "If one foreigner had been killed a massacre probably would have followed. The British consulate was burned because it employed laborers from another province. In the construction of new buildings."

Miss Alice Blech Is a Bride. Washington, Apr. 26.—Miss Alice Blech, who recently relinquished her duties as social secretary to Mrs. T. S. N., was married this afternoon. The ceremony was performed at St. John's Episcopal church and was witnessed by a large and fashionable assemblage.

Trinity Church Worth \$14,500,000. New York, Apr. 26.—The year book of Trinity parish, the richest church corporation in the world, made public today, shows the total assets of the great parish to be \$14,500,000. The income during the year on the parish's investments increased \$400,000.

Violent Earthquakes in Spain. Lisbon, Apr. 26.—Violent earthquake shocks have occurred in the Wyper Minho valley, but no casualties have been reported.

## GIRL HAZERS USE HOT WAX ON MISC

CRUELITIES PRACTICED IN CONNECTICUT SCHOOL REVEALED IN INVESTIGATION.

## SOAP MIXTURE FED TO HER

Ice Put Against Shoulder While Hot Poker Burns Raw Meat—Her Recovery in Three Years Is Very Doubtful.

Bridgeport, Conn., Apr. 27.—Startling revelations regarding the hazing of Lorraine Clark by members of the Alpha society of the Bridgeport high school were made by the investigating committee after a session which lasted until 2 o'clock this morning.

Indignities and cruelties of an extraordinary nature, the committee found, were inflicted upon the girl, who is a daughter of Payette Clark, a member of the lower house of the Connecticut general assembly.

Here are a few of the tortures Miss Clark was made to endure, as testified by the girls who were summoned to appear before the board of education:

Forced to swallow 3-inch pipes of macaroni after it had been boiled in soap for half an hour. While partaking of the nauseating mixture the members of the society danced about her and told her she was eating angle worms.

Given Molasses Cocktail. Three raw oysters were placed before her, and when she ate them she was told she had swallowed pollywogs.

A cocktail made of molasses, ginger, salt, pepper and white of egg was her next portion, and she was moved by a concoction of milk and sugar, which she was made to drink from a nursing bottle.

Sealing was meted by a candle was allowed to drip on the arm of the victim, and this constituted her "branding."

A red-hot poker was held before the face of the victim. The hand, folded, a cube of ice was pressed against her bare shoulders, while the hot poker was plunged into a piece of raw meat, the odor of burning flesh adding to her tortures.

The parents of Miss Clark testified that their daughter was a nervous wreck and that she was now confined to a sanitarium in Baltimore, Md. They produced certificates from the attending physicians to show that she is on the verge of complete prostration. Several physicians testified that it would require three years at least before her nervous system could be restored to its normal shape.

## SCHOOLGIRL, 12, VANISHES

With Third Disappearance in Two Weeks, Sterling, Illinois, Police Are Baffled.

Sterling, Ill., Apr. 27.—Katie Fullinger, 12 years old, disappeared from her home Monday, in this city, and all efforts to locate her have failed.

Katie lives with her aunt, Mrs. Edward Handel. She left her school at the usual hour Monday morning, waving a farewell to her aunt.

This is the third disappearance from this city in two weeks. The first was John Weaver, who, it is believed, was murdered and thrown into Rock river. This followed a day later by the disappearance of Bert Shultz. The police are baffled.

## \$40,000 FIRE AT BREWERY

Blaze in Bottling House of Anheuser-Busch Plant at an Early Hour This Morning.

St. Louis, Apr. 27.—At 1:30 o'clock this morning an alarm was sent from the Anheuser-Busch Brewing association's bottling house No. 3. It was quickly followed by a second alarm. The blaze started in the cork room of the bottling house and the damage amounted to about \$40,000.

Thousands of corks were consumed and furniture owned by Edward A. Faust destroyed.

## AS THE "DUKE OF DURHAM"

American Dealer Sat in Chair Once Occupied By Hero of Waterloo

The late Mr. Washington Duke, of Durham, North Carolina, at home known as "Uncle Wash," who manufactured tobacco products so extensively for a quarter of a century, used to tell a quaint little story on himself. "The first time I traveled abroad," he said, "I visited Brussels and went to see all its sights. In one of the public buildings I found an ordinary looking armchair carefully rolled out and with a chain across its front. Being tired with a hard morning of tramping, I stepped over the fence, laid down the chain and, with a big sigh of relief, dropped into this chair, the only one I had seen in the building. A guard in lace and buttons was on me at once."

"No sitting in that chair!" he blustered. "See the card on the back? The Duke of Wellington once occupied that chair!"

"Well, and what of it?" I returned, cool as a cucumber. "I'm Duke of Durham, and alive at that!"

"This settled the matter. Down to the floor went that funky, brushing the dust from my American sheepskin with his handkerchief of real European title. A wisp of English title catches them every time. I had my rest out in that solid old chair of the Waterloo hero."—The Wasp.

## To the Pearl Buyer.

"For every pearl you buy you will shed a tear," says an old adage; but the modern woman who knows the worth of the lustrous pearl or the value of the cultured pearl, and who depends largely upon its tint, but there is a process of staining which often produces the pink of the natural pearl. Only a connoisseur should invest in pearls alone. The good pearl is large, very round, smooth and iridescent.

## A Humble Queen.

Queen Adelaide, the wife of King William IV., was a woman of unaffected piety and humility. These qualities were conspicuous in the directions left in her will.

"I die in all humility, knowing well that we are all alike before the throne of God, and I request therefore that my mortal remains be conveyed to the grave without any pomp or state. I die in peace, and wish to be carried to the tomb in peace and free from the vanities and the pomp of this world."—Home Notes.

## A COMMON ERROR

The Same Mistake Is Made by Many Earlington People.

It's a common error To plaster the aching back, To rub with liniments rheumatic joints, When the trouble comes from the kidneys.

Dose's Kidney Pills cure all kidney ills.

And are endorsed by Earlington citizens.

Mrs. Eva Hobbs, North Seminary St., Madisonville, Ky., says: "I have no hesitation in endorsing the claims made for Dose's Kidney Pills as they are, without doubt, the best kidney medicine in the world. When they cured me of kidney trouble in the summer of 1903, I allowed my experience to be published in our local papers so that other persons who were suffering as I did might know what course to pursue to get relief. I was afflicted for years with acute pain through my kidneys and loins and often I had to give up and lie down. The kidney secretions were also irregular and distressing in passage. I tried remedy after remedy, rubbed my back with liniment, and wore plaster, but received little or no relief. Dose's Kidney Pills made a complete and permanent cure four years ago and it only required the contents of two boxes to bring about this result."

For sale by all dealers. Price 50 cents. Foster-McBride Co., Buffalo, New York, sole agents for the United States.

Remember the name—Dose's—and take no other.

## CORNS CURED 100.

There's no need for you to suffer with corns. McFarland's Corn Cure has cured thousands and will cure you. Only 10 cents and cure guaranteed. R. M. McFarland, Madisonville, Ky.

## FINANCES IN THE NURSERY

Real Wisdom in Making Children Realize the Actual Value of Their Money.

"I do not see why a parent should not say to a girl: 'Here is so much a year; you have to pay your school bills, your dress, your laundry, your traveling expenses, and the cost of your games and your sweets out of it.' This was the startling suggestion advanced by a public speaker in a lecture on "Woman and Her Money," given to a large gathering of women recently in London.

In his capacity as a lawyer, the speaker has seen much misery and unhappiness for which extravagant wives and daughters, reared in total ignorance of the value of money, have been responsible, and in his opinion many disasters could be avoided if women were more wisely educated in the handling and investing of money.

"The ideal father and mother give their children an allowance," he went on to say, "even if it is only a penny a week. This allowance should be increased as time goes on, and a girl should gradually be allowed to pay all her own bills and expenses."

## Fox Committed Suicide.

During a run of the Godwits (Eng.) foxhounds recently the fox in order to escape from the hounds jumped down a 30-foot well, and it is presumed that he committed suicide. After being told the story an official of the Zoological society said that no animal ever intentionally ends its life. "I can only recall two creatures," he said, "who are supposed to commit suicide, and they are the scorpion and the wasp. I have never quite satisfied myself as to these creatures. They both appear to kill themselves by their own stings, but I have always thought the death was accidental."

## A Jam Thief in Court.

Little Willie, nine years old, was noticed by his stepmother to pay many quiet visits to his bedroom. She followed and found him eating from a jar of jam. She beat him until he told her he had stolen it, so she took him and the jar to a nearby shop. Willie was charged at Oldstreet with stealing the jam, but the magistrate said it was perfectly ridiculous to bring such a little boy when his father, if not his stepmother, could deal with the matter himself. The boy was discharged.—New York Press.

### WEE ON THE STAND

FIRST OF SWOPE FAMILY TO TEE TIFY TELLS OF HYPODERMIC INJECTION BY DR. HYDE.

#### PHYSICIAN BOOTS POISE

Kansas City Druggist Tells of the Different Times at Which Purchases Were Made—Record Kept in Day Book.

Kansas City, Apr. 25.—Margaret Swope, the first member of the family to testify in the case against Dr. E. Clarke Hyde, for killing Col. Swope, her uncle, took the stand to tell how Dr. Hyde went into her room while she was alone and gave her a hypo-

dermic injection, from which her arm swelled to twice its normal size.

The state contends that Dr. Hyde injected what he supposed were diphtheria germs in Margaret's arm, but what was in reality, doubtless, an error by the automaton, pus germs.

Stim and of a shy manner, Margaret Swope's testimony, delivered in a low tone, had an obvious effect on the jury. She said Dr. Hyde did not feel her pulse, and did not explain why he gave her the hypodermic. The testimony has shown that he told others it was oil of camphor to correct a weak pulse.

Referring to the report that Dr. Hyde once boiled water to use in the Swope house for the day use of himself and wife, the witness said:

"Before Col. Hinton's death, Dr. Hyde and his wife used to drink clove water at our house. But when they came there on the Sunday before Thanksgiving, Dr. Hyde brought boiled water for the use of himself and Mrs. Hyde. I saw it. One of the family drank clove water."

Dr. Hyde said he wanted to kill some dogs when he bought cyanide before the trial of the Swope and Christian Swope, according to Hugh Brecklin, a druggist, who sold him the poison.

Brecklin said he never before put up cyanide for a physician, and he questioned Hyde for that reason, he said. As yet Brecklin has not testified in this case, and did not testify at the coroner's inquest, but the notes of his testimony before the grand jury are in the hands of counsel for both sides. Cyanide of potassium is so volatile that it cannot be kept long in capsules.

Christian Swope died December 6, and Margaret, his sister, was seized on December 4 with a convulsion similar to those in which her brother and uncle died.

Brecklin told the grand jury that he and his clerks sold Dr. Hyde four first grain capsules of cyanide September 12, and six five-grain capsules December 3. Brecklin also sold Hyde 261 tubes of typhoid and diphtheria and other cultures. His daybook, showing these sales, will be an exhibit in this case, not having been destroyed in the fire of unknown origin, which destroyed his store the later part of last December.

### JAP MARINES ARE HEROES

Dying in Sunken Submarine, Officer Keeps Memoranda of Efforts to Escape From Ship.

Kobe, Japan, Apr. 22.—A story of the heroism of Japanese naval men was found in the memorandum of Lieutenant commander of the Japanese submarine which went down in the harbor at Kure last Friday. The submarine was raised and opened Friday, revealing that its three officers and eleven men had been asphyxiated.

The memorandum carefully explained the mechanical cause of the sinking of the boat and described attempts to refloat it. The lieutenant praised the courage of his subordinates, all of whom said they were glad to die for Japan. Their last regret was that the emperor would provide for their families.

15,500,000 Acres Withheld.  
Washington, Apr. 22.—Secretary Ballinger announced that he has withdrawn from entry 15,500,000 acres of land in southeast Montana, because they are believed to contain coal deposits.

### BEGINNING OF THE IRON AGE

Excellent Reason for Believing It Originated in Central Europe—Its Use in China.

The iron age is commonly believed to have begun in Africa and Asia. The latest investigations prove that it was not worked in Egypt until the ninth century before the Christian era; or in Libya until 650 B. C.; that the Semites adopted its use still later, and that it has been known in Uganda only with the last five or six centuries. In China iron is mentioned in 400 B. C. Bronze weapons were employed in China until 100 A. D., and in Japan until 700 A. D.

According to a Mr. Ridgeway, who has investigated this subject, the metallurgy of iron must have originated in central Europe, especially in Noricum, which approximately represented modern Austria and Bavaria. Only at Hallstatt and in Bosnia and Transylvania, from which countries the Achaemenes and Persians are supposed to have migrated to Greece, are found evidences of a gradual introduction of iron, at first as an ornament applied to the bronze, which it ultimately displaced. Everywhere else iron was introduced suddenly, a fact which implies a foreign origin.

Motivator iron was known in Egypt in remote antiquity, but not doubt it was worked as flints were worked, by cutting or chipping, and was not smelted. In other words, it was the metallurgy, not the knowledge of iron, that originated in central Europe.

Good Substitute for Reality.

A New York woman who likes to have flowers in her windows but finds it impracticable to do so in the city has artificial ones painted on the glass. These window flowers above the street and the flowers are in colors to enable them to be seen more easily. The apartment house in which the woman lives is on Broadway, and the effect of the art is very striking.

### Engineering in Hospitals.

Practically all the important infirmaries and hospitals in England have their own electric generating stations, and the size of the installations would surprise the majority of engineers. The equipment has to be designed with unusual care, owing to the special conditions which prevail in hospital work. Even where a public supply is available, the use of an independent system is justified on account of the security which it gives against failure of current at a critical moment. The installations are used for lighting, heating, ventilating, telephoning and other purposes, and many hospitals have laundries operated electrically. One county asylum has its own private electric railway for conveying supplies from the nearest railway station.

His Faith Shaken.

"I saw a Jap smoking a short clay pipe today," says the Philosopher of Poly, "and after this I won't bet on anything!"

### The Duration of Dreams.

Something regarding the duration of dreams can be gathered from this experience of a man who, on sitting down for a dental operation, took gas and dreamed. He saw himself finish his work, go to the club, leave for the station, run for the train and miss it. He returned to his club and reclined on a settee in the library. There he passed a miserable, restless night getting gradually colder and colder as the fire died down, and with a pain gradually growing about his head and face from the hardness of his couch. Five o'clock in the morning came, and the steward roused him to say that the club must now be closed. The sleeper got up feeling very stiff—to find that the steward was his dentist, and that the night's adventures had lasted exactly 42 seconds.

Revelation.

Tell me thy company and I will tell thee what thou art!—Cervantes.

### Greatness.

In olden times great men existed at the expense of others. Alexander and Napoleon were great by despising ordinary humankind. That will be no more. Greatness will be pure, moral, intellectual, in olden days great men were great by the pleasure, are come great. I do not share the common ill will against conquerors. Those who think Alexander a madman, who set Asia on fire for his pleasure, are fools. Where would the human spirit be if Alexander had not undertaken his marvellous expedition? No, wars and conquest were the instruments of progress. But this will be no longer when the whole world will have become rational.—Ernest Renan.

Sense of Honor.

The sense of honor is of so fine and delicate a nature that it is only to be met with in minds which are naturally noble, or in such as have been cultivated by great examples or a refined education.—Addison.
